Overall, most journals have valued the speed to publish the most up-to-date results rather than focus on the significant flaws of these early studies. At Clinical Therapeutics, we welcome your COVID-19 studies and want to be part of disseminating the most useful information to help clinicians around the world. However, we also want to help raise the bar on the quality of published COVID-19 research.

Psychotherapy publishes a wide variety of articles relevant to the field of psychotherapy. The journal strives to foster interactions among individuals involved with training, practice theory, and research since all areas are essential to psychotherapy. Authors are asked to submit theoretical contributions, research studies, novel ideas, the controversial, as well as examples of practice-relevant issues that would stimulate other theorists, researchers, and/or practitioners.
