Packed with test-taking tips and techniques, the OFFICIAL CPC CERTIFICATION STUDY GUIDE delivers a current and comprehensive review that helps you maximize your success on the AAPC CPC Certification Exam. The guide begins with a complete summary of the business of medicine, giving you a solid understanding of the medical office and the role of the coder. It covers ICD-9-CM guidelines using real-life examples. Each body system is reviewed, including coverage of anatomy, related diagnosis coding, CPT coding, HCPCS Level II coding, and modifiers. End-of-chapter questions are modeled after those on the actual certification exam, while operative notes give you hands-on experience coding what you have learned. Additional testing techniques and an end-of-guide practice exam lets you put your skills to the test. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

This is a book for questions about what medical coding and medical billing is, how to start your own business as a medical coder at home or even a medical biller. The book tutors' students to pass the AAPC CPC exam. The book also has full course information. The sessions include Medical Billing, Coding, Medical Terminology, body systems, definitions and a host of surgical descriptions. The book also has testing techniques along with pictures to give you an idea of what the field is about. The class is about motivation and helping people achieve their goals. The book has a huge amount of answers for people who are wanting to grow into the next level of Medical Billing and Coding or just for people who are at home who want to learn about medical coding and billing as a profession and how they can learn the skill. This book is an informational tool for those who want many questions answered about billing and coding. The awesome thing that stands out in this book is that you can ask the author questions live if the reader does not see something that they may have a question about they can email the author or via phone contact. The reader can also contact the instructor through the class to ask questions this is all free. The book is designed to educate and inform new students and prior students on how to take the billing and coding to the next level. All the stories and summaries in the book are real-life experiences. The book introduces a class session that can be taken at the pace of the student, whether you are working full time or part-time a schedule will be prepared for the student to accomplish their goal. Most importantly information on passing the CPC (certified professional coder exam) this exam is given through AAPC (American Academy of Professional Coders) it is one of the most important exams a student will take. The fun of just mastering a skill and knowing how well you are in it and how you can perform the task is a plus in the billing and coding world. Being certified will set you apart from the uncertified you will have more of an opportunity to excel in the field either working at home or in a medical facility. You and I will take this journey together. If your home and watching television just trying to figure out what to do, what is next, what career should you do, this is the one for you. Read the book all those questions you had will be answered. In this book, you will see motivation, inspiration, and transformation.

Today's fast-paced and constantly changing health-care environment demands that you find the answers you need quickly and easily. This brand-new approach to billing and coding teaches you the who, what, why, when, and how of proper diagnostic and procedural coding, claim form completion, and medical recordkeeping.

Theory and practical review questions (located at the end of each chapter) focus on recalling important chapter information and application of codes. A step-by-step approach makes it easier for students to build coding skills and remember the material. Learning objective and glossary review questions

reinforce student understanding of key chapter concepts and terms. 30-day trial to TruCode® Encoder Essentials gives students experience with using an encoder (plus access to additional encoder practice exercises on the Evolve website). UNIQUE! "Real-life" coding reports (cleared of any confidential information) simulate the reports students will encounter as coders, and help them apply coding principles to actual cases. Online activities on Evolve provide extra practice with assignments, including coding reports. More than 450 illustrations help in understanding the types of medical conditions and procedures being coded, and include examples taken directly from Elsevier's professional ICD-10 and HCPCS manuals. UNIQUE! Four coding-question variations – covering both single-code questions and multiple-code questions and scenarios – develop students' coding ability and critical thinking skills. UNIQUE! Coders' Index in the back of the book makes it easy to quickly locate specific codes. Official Guidelines for Coding and Reporting boxes show the official guidelines wording for inpatient and outpatient coding alongside in-text explanations. Exercises, Quick Checks, and Toolbox features reinforce coding rules and concepts, and emphasize key information. Valuable tips and advice are offered in features such as From the Trenches, Coding Shots, Stop!, Caution!, Check This Out, and CMS Rules. Sample EHR screenshots (in Appendix D) show examples similar to the electronic health records students will encounter in the workplace.

Individuals who are preparing to take medical coding exams should note that study guides can help them earn the competitive score they want. This is the case for several reasons, including the fact that these study guides tend to incorporate a lot of helpful material, including: medical and anatomy terminology reviews, testing techniques for the exam, questions that parallel the CPC certification exam, practical examples, review questions designed to test the student's knowledge of important coding concepts, and many more.

Medical coding professionals provide a key step in the medical billing process. Every time a patient receives professional health care in a physician's office, hospital outpatient facility or ambulatory surgical center (ASC), the provider must document the services provided. The medical coder will abstract the information from the documentation, assign the appropriate codes, and create a claim to be paid, whether by a commercial payer, the patient, or CMS. While the medical coder and medical biller may be the same person or may work closely together to make sure all invoices are paid properly, the medical coder is primarily responsible for abstracting and assigning the appropriate coding on the claims. In order to accomplish this, the coder checks a variety of sources within the patient's medical record, (i.e. the transcription of the doctor's notes, ordered laboratory tests, requested imaging studies and other sources) to verify the work that was done. Then the coder must assign CPT codes, ICD-9 codes and HCPCS codes to both report the procedures that were performed and to provide the medical biller with the information necessary to process a claim for reimbursement by the appropriate insurance agency. This text is intended to dispel any ambiguity prior to taking your national certification. This text contains over 400 preparatory examination questions, covering ICD-9, ICD-10, Revenue cycle, Medical report extrapolation assignments, HCPCS, UB04, and CPT.

CPT(R) 2022 Professional Edition is the definitive AMA-authored resource to help healthcare professionals correctly report and bill medical procedures and services.
