Please assist me for knowing the right selection Criterion of 3RT power contactors for DG application. (diesel Generator) That mean we need to Switched ON and OFF the DG Supply by using these Contactors. specially we have to use these contactor for DG set

Selection of 3RT Contactors - Siemens

An overcurrent relay installed behind the line contactor will protect the motor in star- AND delta mode. b) All 6 conductors to the motor have to be rated for 100 % motor full load current. If an overcurrent relay is installed after the line contactor all 6 conductors running to the motor may be rated for the set current of this overload relay (Ie motor x 0,58).
