This book delineates effective roles for librarians on Institutional Review Boards (IRB) and the Institutional Animal Care and Use Committees (IACUC) and provides guidance for librarians on how to serve on them.

The Model Rules of Professional Conduct provides an up-to-date resource for information on legal ethics. Federal, state and local courts in all jurisdictions look to the Rules for guidance in solving lawyer malpractice cases, disciplinary actions, disqualification issues, sanctions questions and much more. In this volume, black-letter Rules of Professional Conduct are followed by numbered Comments that explain each Rule's purpose and provide suggestions for its practical application. The Rules will help you identify proper conduct in a variety of given situations, review those instances where discretionary action is possible, and define the nature of the relationship between you and your clients, colleagues and the courts.

Clinical Research Manual: Practical Tools and Templates for Managing Clinical Research is the "must-have" book for anyone working in the day-to-day operations of a research study or clinical trial. Filled with tools, techniques, and templates, this manual offers clinical researchers, principal investigators, and research coordinators the foundation they need to successfully organize complex trials.

Clinical Trials, Second Edition, offers those engaged in clinical trial design a valuable and practical guide. This book takes an integrated approach to incorporate biomedical science, laboratory data of human study, endpoint specification, legal and regulatory aspects and much more with the fundamentals of clinical trial design. It provides an overview of the design options along with the specific details of trial design and offers guidance on how to make appropriate choices. Full of numerous examples and now containing actual decisions from FDA reviewers to better inform trial design, the 2nd edition of Clinical Trials is a must-have resource for early and mid-career researchers and clinicians who design and conduct clinical trials. Contains new and fully revised material on key topics such as biostatistics, biomarkers, orphan drugs, biosimilars, drug regulations in Europe, drug safety, regulatory approval and more Extensively covers the "study schema" and related features of study design Incorporates laboratory data from studies on human patients to provide a concrete tool for understanding the concepts in the design and conduct of clinical trials Includes decisions made by FDA reviewers when granting approval of a drug as real world learning examples for readers

This book discusses the opportunities and conditions that digital technology provides to extend, innovate and differentiate the services offered by consulting companies. It introduces suitable artefacts like web-based consulting platforms, consulting applications, semantic technologies and tools for data mining and collaboration. Furthermore it examines concepts to evaluate the virtualization of consulting processes and showcases how solutions can be developed to blend traditional and digital consulting models. Presenting state-of-the-art research and providing a comprehensive overview of the methods and techniques needed for digital transformation in the consulting industry, the book serves as both a guide and a roadmap for innovative consulting companies.

Emergency departments around the world may differ, but many of the problems they face are the same. Written by an international panel of experienced emergency department leaders Emergency Department Leadership and Management provides the latest knowledge and advice to improve your personal leadership skills. The book will assist emergency department leaders in overcoming common management and operational problems including overcrowding, risk management, implementing the right triage system, electronic and IT solutions, improving clinical teamwork, education of emergency department staff, improving patient flow, care pathways and leading during times of change. Example cases are included to allow leaders to compare common cases to the problems which they face in their own departments. Information on designing emergency medicine specialty residency programs is also provided. It is the official text of the International Emergency Department Leadership Institute (IEDLI) and has been endorsed by the International Federation for Emergency Medicine (IFEM).
