Although military operations against terrorist forces often garner the headlines, those who protect government, military, and business leaders from assassination or kidnapping are also in the front lines against terrorism. Ready and prepared to place his body between his employer and a bullet, the bodyguard must be able to blend into the milieu around his charge, yet be ready to spring into action instantly to counter an attack. Based on techniques of the U.S. Secret Service, U.S. State Department Security, the Special Air Service, the Royal Corps of Military Police, the Metropolitan Police, the KGB and its successor the FSB, France's GSPR, and other protective units around the world, The Bodyguard Manual details the steps a protective team takes to prevent attack as well as the tactics which are employed when it is necessary to counter an attack in progress. From security aboard Concorde, the Orient Express, or the Queen Elizabeth 2, to protecting a military general officer in combat, The Bodyguard Manual allows the reader to "stand post" with the professional bodyguard.

I wrote this book to teach people with no background in the protection industry how to not only be their own bodyguard but how to learn new skills so that they may eventually protect other people professionally. If you want to learn the business and become a Private Security or Close Protection Operator, you must learn a series of skill sets. How you gain any skill set can vary from person to person. Some people acquire the skills in the military, police or even after years of hands-on martial arts training. You do not have to become a Green Beret, Navy SEAL or CIA Contractor to acquire a series of proficient skill sets on survival, combatives or shooting. All you have to do to acquire some new skills in personal protection is to have the desire to learn and then apply what you have learned safely and with a high level of proficiency. I will pass on small pearls of wisdom throughout this book. The gems that I pass on to you have been passed on to me in many different ways throughout my life. Each jewel will be a new skill or a direction to learn. The more that you learn, the more you will understand. Any person with the passion for learning will pick up these new skills and instantly apply them. The more that you read about close protection, the more you will learn from this book. The more that you physically do, the more ingrained your skills will become into daily operational procedures. Even if you learn just one new thing from this book that saves your life, or someone else's, then it was worth learning that skill. Stay flexible in your thinking and keep an open mind as you read this book. The more you learn about yourself, the more you will want to know and apply your new skills towards your everyday life. Eventually you will be able to tie all of the pearls from this book together and become operationally proficient and stay safe in many different scenarios.

An innovative guide to applying the strategies of a bodyguard to create a Buddhist “ security plan ” for protecting ourselves from suffering

- Presents the unique concept of the “ bodyguard ” and its protection tactics as a metaphor for explaining and implementing Buddhist teachings
- Recasts the Four Noble Truths as the Four Noble Tactical Truths, the Eightfold Path as the Eight Tactics Plan, and the notion of Interbeing in the Buddhist world as the Tactics of Interdepending
- Offers a new, modern understanding for the new generation of Buddhist practitioners intrigued by a more Western take on Buddhism

Drawing from his extensive experience as a professional protection agent, Jeff Eisenberg uses the tactics and strategies that a bodyguard employs in protecting a client from a threat as a blueprint for creating a Buddhist “ security plan. ” This plan provides the practical tools to protect one ’ s self from the threat of suffering in our world. Using the metaphor of being the Buddha ’ s bodyguard to understand the Buddhist teachings, the book details how to protect our inner “ Buddha nature ” and secure our mental and emotional wellbeing. We all have the chance to train ourselves to be more proactive in our own safety and avoid becoming a victim. And if we are victimized, this training will prepare us to take appropriate actions that will aid in our ability to survive with much less injury and trauma. As the author affirms: “ It is vital to realize that a physical altercation is the last thing that happens in a chain of events. And while we must never blame the victim, our safety is our responsibility. Many situations can be avoided, or their severity greatly lessened, if we pay attention during the chain of events that leads up to it and respond appropriately. ” While this book is not about personal protection per se, it applies personal protection theory and specific tactics utilized by bodyguards to Buddhist practice, laying out strategies to protect our inner Buddha from attack. Thus the Four Noble Truths are applied to the concept of “ threat ” in the form of Four Noble Tactical Truths, the Eight Tactics Plan echoes the Eightfold Path, and the Tactics of Interdepending embrace the notion of Interbeing in the Buddhist world. With “ paying attention ” and mindfulness being key concepts of both a bodyguard ’ s profession and Buddhist practice, this pioneering book speaks to Buddhists and non-Buddhists alike.
